

D

THE DIRECTOR OF  
CENTRAL INTELLIGENCE

National Intelligence Council

16 February 1983

NOTE FOR: DCI

FROM : VC/NIC

1. I asked Ted Atkeson to do a quick study of the quality of our military intelligence from El Salvador.

2. The attached response suggests that our judgments and estimates of the military situation there are derived from a narrow base, and thus they could be off by a considerable margin.
